MEMORANDUM FOR: Deputy Director for Administration

SUBJECT: Staff Communications Development and
25X1 Engineering ☐

REFERENCE: Your memo, same subject dated 30 November 1978

- 25X1 1. ☐ I have reviewed in some detail your proposal for transferring the development and engineering responsibility for staff communications back to the Office of Communications and find that I am not currently in a position to judge its merits. As I am sure you are aware, there have been no formal RD&E activities funded to support staff communications in the past few years, but it is apparent that some level will be required in the future.
- 25X1 2. ☐ I would therefore like to suggest that when the future plans for staff communications are firmed up and the required development and engineering tasks identified that we revisit your proposal.
- 25X1 3. ☐ I am sure that if the required level of development and engineering is as it is today, that there should be no reason to delay the transfer of responsibility back to the Office of Communications.

☐
LESLIE C. DIRKS
Deputy Director
for
Science and Technology
